RE: Totals for Schedule E and 24HN Reports

Dear Mr. Rebollozo:

This statement is filed contemporaneously with the July Quarterly 2016 report to provide which provides details regarding the totals reported on Schedule E in contrast to the totals reported on 24 Hour Notices (24HN).

Due to a functionality limitation in the FEC Filing Software, this report reflects a work-around to permit the highest degree of disclosure despite the software limitation. Schedule E reflects independent expenditure transactions previously reported on 24HN filed during this reporting period (6/8 6/30). In accordance federal regulations, the PAC reported the transactions based on the best information reasonably available to the committee in the ordinary course of its operations at the time the 24HNs were filed. In some cases, a 24HN was prepared based on the date of obligation rather than the actual date of disbursement by using a memo entry in the software.

Since the dates that the 24HNs were originally filed, actual payments have been made on certain transactions. Therefore, Schedule E reflects both the memo entries entered at the time the 24HN was prepared and the entries for the actual payment made to the vendor during the reporting period. Entries that were the memos entered at the time the 24HN was prepared and filed (and left in the report to allow one to match this report to the initial estimated disclosed) are indicated by including in the description the phrase: 24HN MEMO.

Due to the limitation in the software functionality, the total Calendar Year to Date per Election for Office Sought (CYTDEOS), though accurately stated on the last 24HN filed for the period on 6/25/2016: \$17463.00, does not match the total reflected in this report. There is a difference between the total reported as the CYTDEOS on the 24HN and the total reflected on Line 24 of the Summary Page and Schedule E of this report (\$17063.53). The difference is: \$399.47; this amount is the total amount due but unpaid as of the last date of this reporting period. The details regarding the \$399.47 debt are disclosed on Schedule D of this report.

As you may recall, in advance of filing this report, the committee took great care to consult with you, Mr. Rebollozo, as its Reports Analyst, to ensure this method of disclosure was the best available presentation of the transactions in the report. This is because Character Is Essential PAC is dedicated to always meeting the Commission's highest expectations of compliance. Therefore, if I can be of further assistance in this matter, please do not hesitate to contact me.

Sincerely,
Christopher Cavin
Treasurer
